EDUCATION

KBP Polytechnic College, Satara
Diploma, Computer Science
June 2022 - August 2025
CGPA: 8.00/10

Saraswati English Medium School, Koregoan
Secondary (X)
June 2018 - May 2022
CGPA: 8.00/10

SKILLS SUMMARY

Languages: Python, SQL, JavaScript, HTML, CSS, C++, Java
Frameworks: Express.js, React.js, GSAP for animations
Tools: Node.js ,Git, GitHub, MongoDB, MySQL, SQLite, Postman
Platforms: PyCharm, Visual Studio Code, IntelliJ IDEA
Soft Skills: Team Management, Leadership, Communication

INDUSTRIAL TRAINING

IRCT Satara
Android Development

- Developed a Cab Booking application using Android Studio.

- Implemented features such as admin login, booking request management, and driver assignment.

- Integrated backend services to enhance functionality.

PROJECTS

• **React Projects**

PassOP
[GitHub Repository](https://github.com/shaikhsiddique/PassOP)]
[Live Link (https://github.com/shaikhsiddique/PassOP)]

-Password Manager 🛡 A basic React app for managing passwords securely stored in local storage with options for adding, viewing and managing.

TaskHub
[GitHub Repository](https://github.com/shaikhsiddique/ems)]
[Live Link (https://pass-op-black.vercel.app/)]

-In TaskHub, I've utilized React hooks like `useState` and `useEffect`, combined with `localStorage` to provide persistent data storage, ensuring a seamless user experience every time they return.
The UI is styled with Tailwind CSS, delivering a sleek, responsive,and consistent design that adapts beautifully across all devices.

React Ecommerce Website

[GitHub Repository](https://github.com/shaikhsiddique/React-Ecommerce-Website)
Live link [(https://react-ecommerce-mu-fawn.vercel.app/)]
-Developed an ecommerce website with React.js for frontend and Node.js for backend, integrating payment gateways and shopping cart functionality.

• **Static Web Development**

Rejouice Website
[GitHub Repository](https://github.com/shaikhsiddique/Rejouice-website)
Live link [(https://shaikhsiddique.github.io/Rejouice-website/)]
-Developed the frontend part of the Rejouice website using HTML, CSS, JavaScript, and GSAP for animations.

ThirtySixStudio Website
[GitHub Repository](https://github.com/shaikhsiddique/thirtysixstudio)
Live link [(https://thirtysixstudio-hu240hsnf-siddique-shaikhs-projects.vercel.app/)]
-Developed the frontend part of the ThirtySixStudio Website using HTML, CSS, JavaScript, and GSAP for animations.

Life of Busker Website
[GitHub Repository](https://github.com/shaikhsiddique/Life-of-Busker)
Live link [(https://life-of-busker.vercel.app/)]
-Frontend for the Life of Busker website with GSAP animations, created with HTML, CSS, and JavaScript.

Stick-man Game
[GitHub Repository](https://github.com/shaikhsiddique/stick-man-game)
Live link [(https://shaikhsiddique.github.io/stick-man-game/)] -Created
a basic stick-man game using HTML, CSS, and JavaScript.

MelodyHub
[GitHub Repository](https://github.com/shaikhsiddique/spotify)
[Live link (https://melody-hub-bice.vercel.app/)]
- Developed a Spotify clone using HTML, CSS, and JavaScript to mimic the Spotify user interface.

KBP Polytechnic Website Clone
[GitHub Repository](https://github.com/shaikhsiddique/KBP-website)
Live link [https://shaikhsiddique.github.io/KBP-website/index.html)]
-Created a clone of the KBP Polytechnic website using HTML, CSS, and JavaScript.

• **Backend (NODE JS)**

Task-Tracker
[GitHub Repository](https://github.com/shaikhsiddique/Task_Tracker)
[Live Link [(https://task-tracker-cyan-alpha.vercel.app/)]
-Task Tracker is a full-featured MERN stack application that streamlines personal task management and enhances
  team collaboration with real-time chat, video calls, email notifications, and AI-powered assistance..

PhotoShare
[GitHub Repository](https://github.com/shaikhsiddique/Instagram-Clone)
- Created a social media app inspired by Instagram, built with Node.js and React, enabling users to share photos,
  follow others, and engage through likes and comments.

Realtime Tracker
[GitHub Repository](https://github.com/shaikhsiddique/Realtime-Tracker)
- Developed a real-time location tracking application using Node.js and WebSocket for real-time updates.

Simple Khatabook App
[GitHub Repository](https://github.com/shaikhsiddique/Simple-Khatabook-App)
- Built a simple Khatabook application for managing daily expenses using React.js and MongoDB.

Scatch
[Github Repository(https://github.com/shaikhsiddique/Scatch-)]
-An eCommerce site for bags using Node.js, MongoDB, EJS, andTailwind CSS. Features admin product management,
image uploads with Multer, and user cart & ordering.

ChatStream
[Github Repository(https://github.com/shaikhsiddique/Scatch-)]
[Live Link (https://chatstream-zyt9.onrender.com/)]
-ChatStream is a real-time app combining chat and video calls. WithWebRTC for video and Socket.IO for messaging, it offers a smooth platform for both personal and professional interactions

DevTube
[Github Repository(https://github.com/shaikhsiddique/DevTube)]
 -DevTube is a developer-centric video platform, similar to YouTube, built using Node.js, Express.js, MongoDB, and Socket.IO, enabling users to share and discover coding tutorials and tech content.

Multi-player Chess
[GitHub Repository](https://github.com/shaikhsiddique/chess)
- Created a multiplayer chess platform with Node.js and Express.js for backend functionality, WebSocket for realtime communication, chess.js for game logic, and EJS with Tailwind CSS for frontend rendering.

• **Android studio**

Cab Booking Application
[GitHub Repository](https://github.com/shaikhsiddique/Cab-Booking-App)
- Developed a Cab Booking application using Android Studio. Implemented features such as admin login, booking request management, and driver assignment.

 VehServicing App
[GitHub Repository](https://github.com/shaikhsiddique/VehServicing)
The VehServicing app, built with Android Studio, offers an intuitive platform for managing vehicle service appointments and accessing service history.

CERTIFICATES

Backend Domination
Sheriyans Coding School, Online
May 2024 - Present
Proficient in Node.js and Express.js for developing scalable backend solutions. Experienced in MongoDB for efficient database management.

Android Development *IRCT Satara*
Completed the course on Android development, focusing on app creation and backend integration.

Microsoft Certifications

Career Essentials in Generative AI
Microsoft and LinkedIn
Issued: July 2024
Skills: Computer Ethics, Generative AI, Artificial Intelligence (AI)

LinkedIn Certifications

Ethics in the Age of Generative AI
Issued: July 2024
Skills: Computer Ethics, Responsible AI

Generative AI: The Evolution of Thoughtful Online Search
Issued: July 2024
Skills: Search Engine Technology

Introduction to Artificial Intelligence
Issued: July 2024
Skills: Artificial Intelligence (AI), Artificial Intelligence for Business

Learning Microsoft 365 Copilot
Issued: July 2024
Skills: Microsoft 365, Microsoft Copilot, Artificial Intelligence for Business

Streamlining Your Work with Microsoft Copilot
Issued: July 2024
Skills: Productivity Improvement, Microsoft Copilot, Artificial Intelligence for Business

What Is Generative AI?
Issued: July 2024
Skills: Generative AI, Artificial Intelligence (AI), Generative AI Tools

AI Productivity Hacks to Reimagine Your Workday and Career Issued: June 2024
Skills: Productivity Improvement, Social Media, Artificial Intelligence for Business

Copilot in PowerPoint: From Prompt to Presentation
Issued: June 2024
Skills: Microsoft Copilot, Microsoft PowerPoint

Digital Literacy and Productivity Learning Pathway
Issued: June 2024
Skills: Computer Literacy, Virtual Collaboration, Digital Literacy

Excel with Copilot: AI-Driven Data Analysis
Issued: June 2024
Skills: Data Analysis, Microsoft Excel, Microsoft Copilot, Artificial Intelligence for Business

Generative AI Skills for Creative Content: Opportunities, Issues, and Ethics
Issued: June 2024
Skills: Media Ethics, Artificial Intelligence for Design, Generative AI Tools

Getting Started with Microsoft 365
Issued: June 2024
Skills: Microsoft 365

Introduction to Prompt Engineering for Generative AI
Issued: June 2024
Skills: Generative AI, Natural Language Processing (NLP)

Working and Collaborating Online
Issued: June 2024
Skills: Virtual Collaboration

IBM Certifications Web Development Fundamentals
IBM
Issued: July 2024
Skills: JavaScript, Web Application Design, MERN Stack, Back-End Web Development, React.js, Web 2.0, Web Development, GSAP

Forage Certifications

GE Aerospace - Explore Digital Technology Job Simulation
Issued: June 2024
Credential ID: zZPQemEbRTgxNmzWX
Skills: Web Development, Web Applications, Java

J.P. Morgan - Software Engineering Job Simulation
Issued: June 2024
Credential ID: upFqeBfxaJxBKkdLG Skills: React.js

JPMorgan Chase & Co. - Software Engineering Lite Job Simulation
Issued: June 2024
Credential ID: p2LMvG7hKHi6jYauZ
Skyscanner - Front-End Software Engineering Job Simulation
Issued: June 2024
Credential ID: ofW9tbE3muc8AsJpC Skills:
Web Development

Walmart USA - Advanced Software Engineering Job Simulation
Issued: June 2024
Credential ID: eYGrvS8K9qDoK27Kf

ADDITIONAL DETAILS

- Attended AI and Android seminars, deepening understanding of AI principles and mobile app development.
- Completed industrial training in Android and backend integration.
- Engaged in expert interactions, gaining industry insights and networking opportunities. - Pursued free YouTube courses in AI and Android, staying current with advancements in technology.
- Competed in local coding contests, demonstrating strong problem-solving and collaborative skills.
